

JOHN GUMM BUILDING PROJECT UPDATE

Columbia County, OR

JUNE UPDATE

The John Gumm Building is coming together as a finished building! In the interior, we have installed bathroom finishes, casework, and painting finishes. On the exterior of the building, we are working through exterior patching and paint.

WHAT'S NEXT

Next, we will continue with exterior landscaping and irrigation. Painting will continue. We will begin cleaning the building and finalizing finishes. We continue to wait on the elevator and that will be our final item to install.

Bathroom Fixtures

Exterior Painting

Level 1 Casework
